8. INFORMATION ON THE EUROPEAN HIGHER EDUCATION SYSTEM

The Europubhealth programme pursues the objectives of promoting a definition of a European Master Degree. It is compatible with the higher education system of the Bologna Process: three years of undergraduate studies, two years of master studies and three years of doctoral studies.

This Diploma Supplement was developed based on the model of the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement
